Carver High School

Everyone reports a most pleasant Thanksgiving holiday and that they are ready for more work.

Six weeks exams begin on December 4. Are you ready?

Many of the college students were here for the holidays. They all look so well and happy. They have an "air" about them that is most pleasant to observe. By the end of the year we should all feel proud of our former students.

Jackie and Ann Lawing attended the Virgnfia State versus Morgan game and had a wonderful time.

Margie Reed spent an enjoyable Thanksgiving at Natural Bridge with relatives and friends.

The Seniors are now planning an educational trip in their Physics class.

The "Turkey Hop", sponsored by the Seniors at Camp Winonah was a success despite the cold weather. Herbert Fleshman, Donald Doss and Lelia Mozee kept the party in full swing.

The Seniors are now studying hard for six weeks exams—wonder what is going to happen?

Lennie McCoy of the eighth grade has returned to school.

Fannie West, Nancy Harvey, Louvenia Johnson and Yvonne Stevens like to sit together all the time—could it be gossip or lessons.

Helen Lee and Sarah Watkins are leading the sophomores in Home Economics. They will start making candy next week.

There was such a change in the weather that Monday morning found many frozen motors, fingers, pipes. School attendance is about back to normal.

The winner of the turkey was Algie Williams. He was a lucky person at Thanksgiving, wasn't he?

The Junior girls are hard at playing croquet and are learning shuffleboard. All the girls seem to be interested in their physical education classes.

We understand there was much debate about our much needed school. If one but spent a day or a portion of a day with our elementary pupils and teachers, not just a peep in on the situation, human emotions would be disturbed to the extent that not one would have wanted to say "Wait." We are glad, however, that it was finally voted upon.

Until next week, we quote: "Has not God borne with you these many years, Be tolerant to others."

Site in South Carolina is chosen for H-bomb plant.

Farm Building Plans Available Soon

Additional plans for farm home buildings will be available in about three months, C. D. Wenary, associate Extension agricultural engineer at V. P. I., announces.

The plans will include sketches and floor plans for about 20 houses, [illegible] booklet on [illegible] Virginia.

Extension Service was in 1948 and included 35 floor plans.

Persons interested in drawings of the houses, are asked to stop by county agents' offices, and choose the drawings they want. The desired drawing then is ordered by number from the Extension Service at V. P. I., Blacksburg, Va.

The forthcoming supplement also will be distributed to building materails dealers and vocational agricultural teachers.

ELECTRIC CONGRESS PLANNED IN RICHMOND

A state 4-H farm and home electric congress will be held in Richmond next September—the first such event in Virginia, Dr. W. E. Skelton, state 4-H Club Agent, announces.

Trips to the congress will be awarded to county 4-H winners, one boy and one girl from each participating county in the newly revamped farm and home electric contest.

County runners'up, two girls and two boys, will receive gold medals of honor.

A 17-jewel gold watch will be presented to the girl and boy attending the congress who have the best entries from each of the five Extension districts in Virginia.

On the state level, as during the past several years, the club member submitting the most outstanding entry will be given an all-expense-paid trip to the National 4-H Club Congress in Chicago, Ill.; and the county completing the most outstanding county 4-H rural electrification program will be awarded a bronze achievement plaque. The club member who wins the state award also will have a chance at one of the six $300 college scholarships to be given in national competition.

Dr. Skelton explains that the 1951 electrification program includes Unit 1 for club members with a limited knowledge of electricity and its uses; and Unit II for those with more advanced knowledge.

All 4-H Club members enrolled in the rural electrification project and working under the supervision of the Extension Service are eligible for awards.

WHEN COLDS START... HERE'S AN ANTI-HISTAMINE THAT YOU CAN TRUST!

A-H ANTI-HISTAMINE TABLETS

Cold's distresses are stopped in many cases the first day.

From where I sit ... by Joe Marsh

I Have A "Close Squeak"!

Spent last Saturday morning wandering all over the house. Wherever I went—upstairs or down—I kept hearing a "squeak." Couldn't find out where it was coming from until noon-time when the missus came home from her weekly shopping.

"Listen," I say.. to her, "hear that squeak?" I started walking real quiet-like across the kitchen and there it went again! "Joe Marsh," she laughs, "that is nothing but your suspender clips rubbing back and forth when you walk!" And darned if it wasn't!

From where I sit, I'd been letting a little thing become a serious problem. Like some little difference of opinion or taste will start off a great big argument. I may prefer a temperate glass of beer with my dinner—while the missus likes tea—but we figure that no two people have exactly the same likes and dislikes. So, why get all "het up" about it?

The moral is, check your suspenders—and check your temper when it comes to little things.

Uncle Sam Says

It is time for every American to ask himself what he can do to help keep his country strong and free. There is much to be done for here's what we must do to support our defense forces and to end aggression in the world: Produce the materials and equipment needed for defense; raise the money to pay the cost of increased defense efforts; do all we can to prevent inflation. Buying U. S. Savings Bonds helps do all of these. Enrolling for the Payroll Savings plan where you work means you are providing for your own financial security and at the same time helping your country. THAT IS SOMETHING EVERYONE CAN DO.
